Product Description

No matter which surfaces they come into contact with throughout their day, give your employees and visitors greater peace of mind by providing proven cleaning and disinfecting workplace hygiene solutions to help break the chain of germ transmission. Leading the way in absorbency, our goal is to support you in improving productivity and efficiency whilst reducing waste by delivering clean, reliably consistent and reusable cleaning cloths. The WypAll® X70 range has been specially designed for medium duty wiping tasks, especially where absorbency is key. WypAll® X70 reusable cleaning cloths absorb oil and water 3 times faster than laundered cloths. The wipers stay strong and keep their shape even when wet, perfect for use in industrial manufacturing. The Hydroknit™ technology ensures each reusable cleaning cloth is lightweight and absorbs quickly, helping to reduce residue and allow versatile cleaning across a variety of tasks, so your surfaces are always ready to perform. The hygienic wipers are also certified for food contact offering a clean, reliable option for surfaces in food service areas. WypAll® X70 reusable cleaning cloths can be used with detergent or disinfectant. These wipers have been tested as compatible for use in spray and wipe application with peracetic acid, hydrogen peroxide, bleach (sodium hypochlorite) and quats (quaternary ammonium compounds). Spray and wiping compatibility helps to ensure workers can wipe their own work spaces, vehicles, desks, seating and food prep areas before and after use. When the WypAll® X70 is used for spray and wipe it also helps to enable production workers to clean down/sanitise individual workstations before hand-off to next shift. For environments where fully saturated wiping is a requirement, these WypAll® cleaning cloths are tested as compatible with soap/detergent, hydrogen peroxide, peracetic acid, methyl ethyl ketone, isopropanol, acetone and bleach (sodium hypochlorite). Always follow manufacturers' instructions for dilution, application and contact time. These industrial wipers are delivered in a high capacity roll format and, when used with the mobile roll dispenser, provide easy access to the wipers just where you need it such as in larger manufacturing and industrial work areas, or anywhere requiring extensive wiping. These Kimberly-Clark wipers are compatible with Kimberly-Clark Professional™ rolled hand towel dispensers (product codes 6146, 6154 and 6155). Individual sheet size measures 38cm (L) x 42cm (W). 1 jumbo roll x 870 reusable cleaning cloths, 1 ply, white (870 total)

# Product Data Sheet for WypAll® X70 Cloths - Large Roll / White - 8348

## Product Features

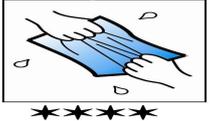

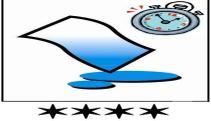

- Each large capacity roll of WypAll® X70 cloths contains 870 white, 1 ply wipers
- WypAll® X70 jumbo roll reusable cloths stay strong, even when wet, so your surfaces are ready to perform
