

# **OVERSHOE MACHINES**

fast – comfortable – favourable

**HYGOSTAR**

Quality products directly from the manufacturer.  
For over 45 years.

**Topseller**

**HYGOMAT**

The bestseller series HYGOMAT is particularly economical, favourable and has a huge range of suitable disposable overshoes. The overshoe machines are ideal for mobile use because they work without power. With the HYGOMAT you put on your overshoes 4 times faster than manually. A time saving that really pays off.

from page 3

**STEPSTAR**

If you are looking for an overshoe machine for very high traffic areas, you will be well equipped with a STEPSTAR. The machines work with electricity and pull a special foil over the shoe. In just a few seconds, the film sits like an overshoe on the foot – extremely fast and efficient.

from page 12

**Overshoes**

HACCP prescribes them and for clean rooms they are required: disposable overshoes. The wearing of overshoes is one of the most important measures against contamination in hygiene-sensitive areas. Often the putting on of overshoes is perceived as annoying and also quickly becomes a balancing act. Overshoe machines make it much easier for your visitors to don the overshoes.

The matching overshoes can be found directly at the machines.

**ECOSTEP**

For low visitor numbers there are the overshoe dispensers of the series ECOSTEP. The dispensers are very lightweight and provide a cost-effective solution for the short-term use of overshoes. Due to their mechanical function without electricity, they can be set up flexibly.

from page 10

**HYGOSTAR**

Overshoe machines HYGOMAT

- 4 times faster than putting on manually
- no electrical power needed
- very user friendly, no stooping
- easy and fast handling, very quiet

Exclusively at Franz Mensch

**NEW:** Grippy organic foil

You only get that at Franz Mensch: The first shrink foil for overshoe machines which is **biodegradable**. Decide consciously for this organic foil and act sustainably.

Important: The step matt made of teflon ensures the tidy operation with the organic foil. Please **order the teflon mat separately**.

Three times good:

1. The foil ensures a **safe walking** on smooth and slippery floors due to its **grippy** surface.
2. The foil is **100% compostable** and the sustainable alternative when it comes to overshoes.
3. In combination with the STEPSTAR machine you get a powerful and very clean hygiene system which is easy to handle for you and your visitors.

1. Stick on the black teflon mat

2. Insert the organic foil roll

3. Ready to use!
