# Certificate

The tropical rainforests are home to countless, special plants and animals, such as the jaguar. It is – after tiger and lion – only the third largest big cat in the world, but the one with the strongest teeth. Unfortunately, this was one of the reasons why at all times and in all cultures it was considered a special achievement to kill a jaguar.

With the donation from Franz Mensch GmbH and thus also from you, you are giving the earth a wonderful Christmas present and helping to protect and preserve the tropical rainforests and their inhabitants, such as the jaguar.

Thank you for your engagement and a Merry Christmas to you, your employees, customers and business partners.
